

Padma Kumari Talreja

Technical Analyst | QA Engineer | Manual & Automation Testing

+923333578468 | Padmakumartalreja@gmail.com | [LinkedIn](#) | Saddar, Karachi – Pakistan

Profile

Technical Analyst with experience in the banking and technology sector, currently working at Habib Metropolitan Bank. I genuinely enjoy Software Quality Assurance, particularly understanding how systems work, identifying gaps, and ensuring a reliable user experience. I approach challenges logically, pay close attention to detail, and enjoy collaborating with teams to solve problems and improve product quality. Continuously learning and building my skills with the goal of growing into an SQA Engineer.

Technical SKILLS

Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, UAT, Exploratory Testing, Web Testing, Mobile Testing, API Testing, Integration Testing, Unit Testing, Test Case Design & Execution, Performance Testing, Load Testing, Stress Testing

Automation: Playwright, Selenium WebDriver, TestNG, JUnit

Programming Languages: Java, Python, JavaScript

API Testing: Postman, REST APIs, JSON Validation

Database: SQL (Joins, Subqueries, Group By, Having), SQL Data Validation

Tools: Jira, TestRail, Git, GitHub, VS Code, Maven, Apache JMeter, MYSQL, IntelliJ IDEA | MS Office

Methodologies: Agile, Scrum

Concepts: SDLC, STLC, Bug Life Cycle, Test Design Techniques, CI/CD Concepts, Requirement Analysis, Technical Documentation

Professional Experience

Technical Analyst | QA Analyst | Officer Grade III

HABIBMETRO Head Office, Karachi, Pakistan | December 2024 – to date

- Analyze business requirements and translate them into technical and testing requirements for banking applications.
- Design, execute, and maintain test cases covering functional, regression, API, and UAT testing.
- Perform API testing using Postman and validate backend data using SQL.
- Conduct load and stress testing using Apache JMeter for Money Exchange, Home Remittance, and 1LINK.
- Perform testing across Core Banking, Digital Banking, B2B Portal, Money Exchange, and payment modules.
- Identify, document, and track defects while collaborating with development teams through resolution and retesting.
- Validate fixes and support application releases, deployments, and system enhancements.
- Maintain technical and testing documentation and collaborate with business and technical teams throughout the SDLC.

Project

DVAGO Web Application Testing

- Created and executed 40+ test cases covering shopping cart, checkout, and product search functionality.
- Identified and documented defects and verified fixes through regression testing.
- Performed functional, usability, and compatibility testing across multiple browsers and devices.
- Prepared test documentation, including test cases and test execution results.

Education

Bachelor of Science in Computer Science | CGPA-3.17

Shaheed Zulfikar Ali Bhutto Institute of Science & Technology

September 2020- to July 2024

Relevant Coursework:

Data Structures and Algorithms, design and analysis of algorithm, Database Systems, Artificial Intelligence, Data Science, Data Mining, Operating Systems, Software Engineering, Software Testing Computer Networks, Hybrid Mobile Application Development, UI/UX.

Certifications

- Udemy | The complete 2025 Software testing bootcamp | July-2025
- ZAB E-Fest | Database Competition | Participated in the database competition.
- Great Learning | UI/UX
